

# THE LOTUS *Essence*

The Lotus Essence expresses sophistication at its finest with its mixed render and timber elevation. As you enter the home a long hallway sets the tone, creating flow and functionality with three minor bedrooms set off the entry hallway and the master bedroom set further back ensuring privacy for each family member. As you move down the hallway a large theatre and IT nook bring the family together extending into the rear open living spaces, combining the kitchen, dining, and living all overlooking the alfresco and rear garden.
